# HK-Series

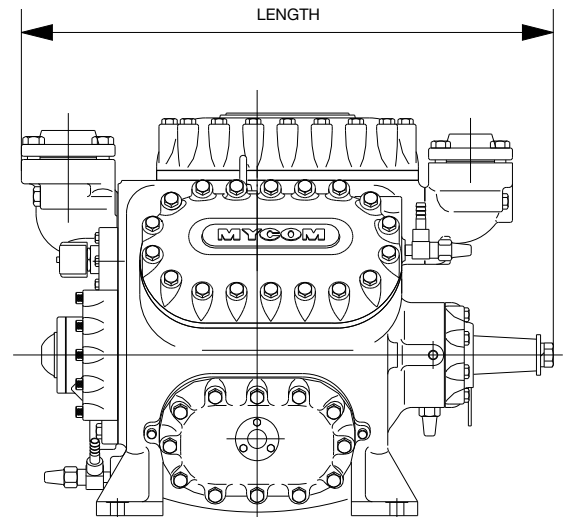

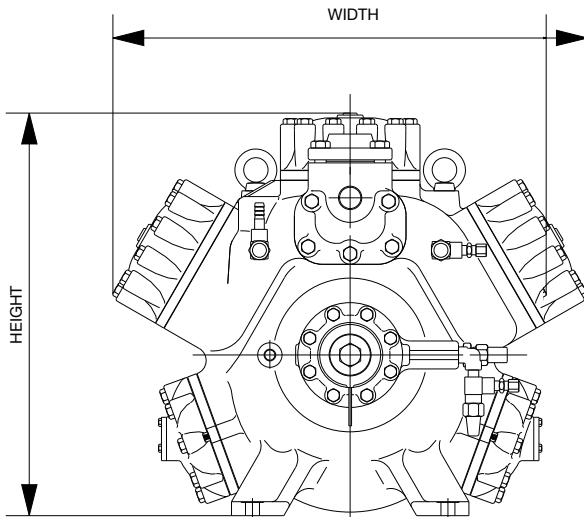

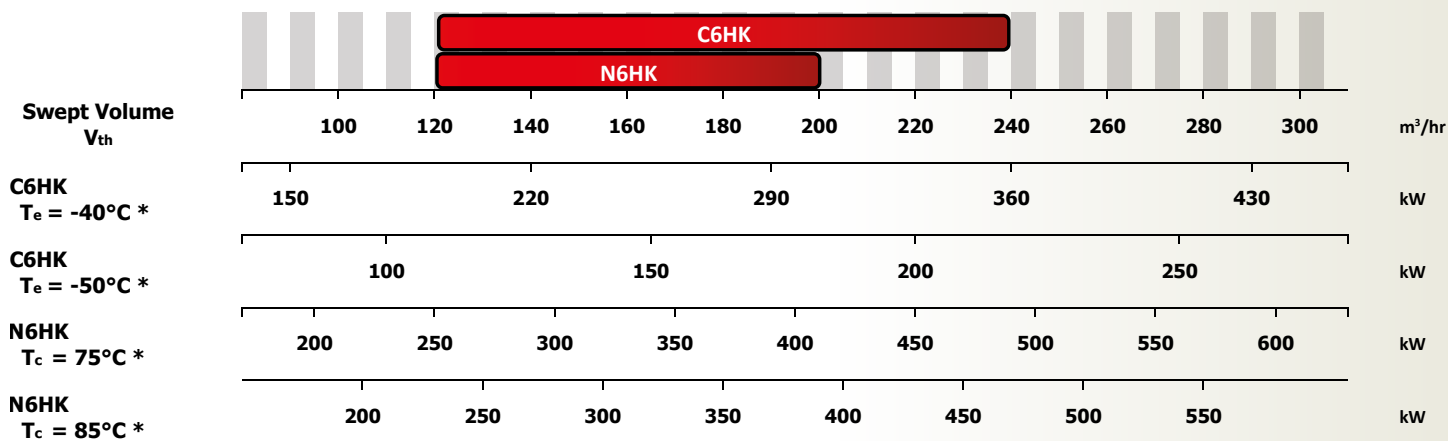

## HK-seria

HK-seria kompresor pompy ciepła bezpośrednio przyczynia się do oszczędności energii. Pompa ciepła może produkować ciepłą wodę powyżej 80 °C z istotną redukcją paliw kopalnych, takich jak gaz i olej. Kompresory HK-serii mogą być używane w szerokim zakresie ciśnień i prędkości. Kompresory HK-serii bezpośrednio przyczynią się do osiągnięcia planu redukcji energii w Twoim zakładzie.

HK-series compressor heat pumps are directly contributing to important energy savings. The heat pump can produce hot water over 80 °C with significant reduction of fossil fuels such as gas and oil. HK-series compressors can be used in a wide range of pressures and speeds. HK-series compressors will directly contribute in achieving your plant energy reduction plan.
